

# Volunteers needed for a study aiming to predict when coughs and colds are going to get worse.

We aim to create an app that can analyse voice and breathing sounds and help people with coughs and colds know whether their illness is likely to get better or worse.

## You may qualify if you:

- Are above 18 years old
- Have a smartphone that can download our app
- Do **not** currently have a Respiratory Tract Infection (cough or cold)

## Participation involves:

- Downloading our app and filling in a consent form
- Answering some questions about yourself and recording yourself speaking, breathing, coughing

## FOR MORE INFORMATION:
